Fingerprint: + Collect

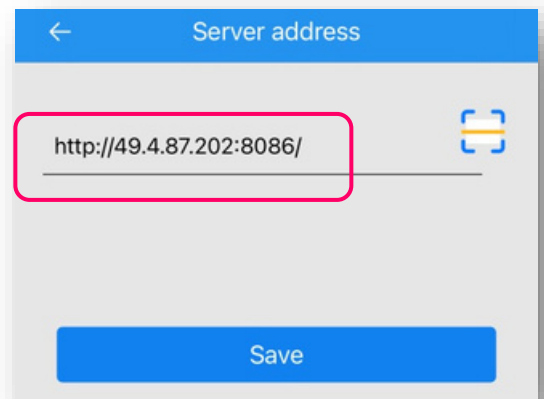

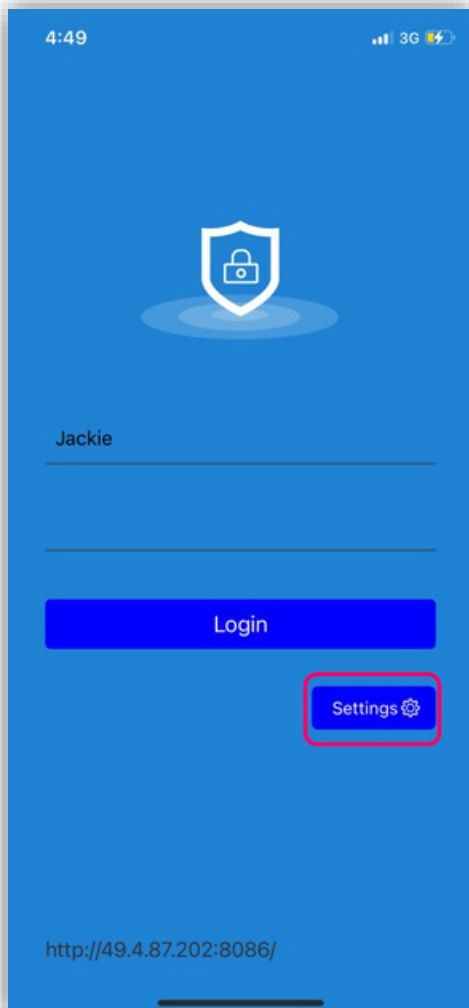

Confirm Cancel

- Input these necessary information you need.
- Select app worker.
- Note: Remember to collect the fingerprint after adding the key.

5.Login APP

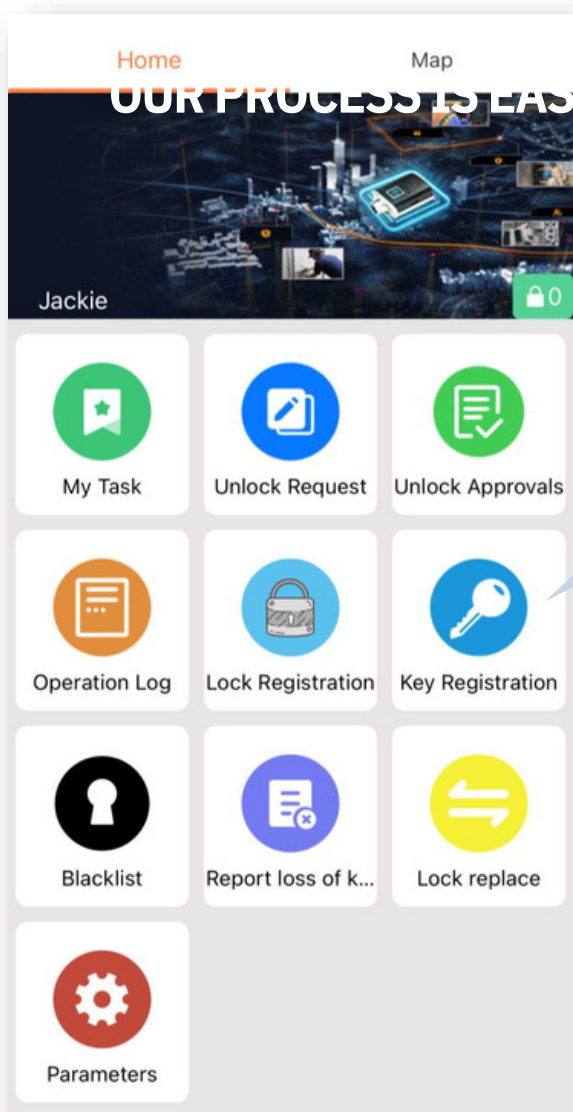

After install VANMA LOCK APP. Start it.
The icon is like this.

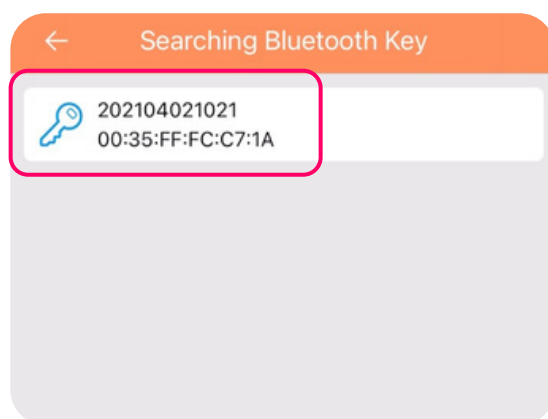

- Input the username and password (default password is 123)
- Click setting to enter software addresses (<http://49.4.87.202:8086/>) when you login APP at first time.

6. Add Key

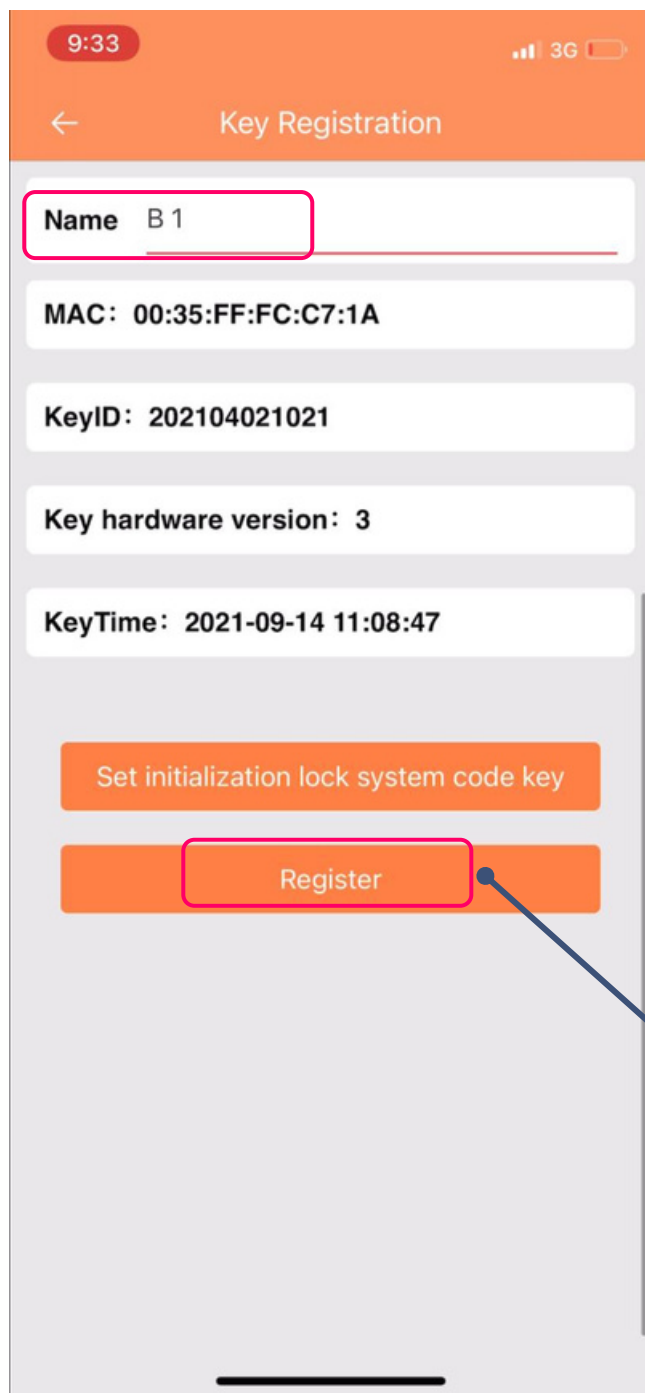

Home Page. Click Key Registration to add keys.

Click in, it will start to search Bluetooth Key. Click it.

VanmaLock

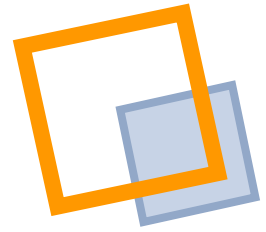

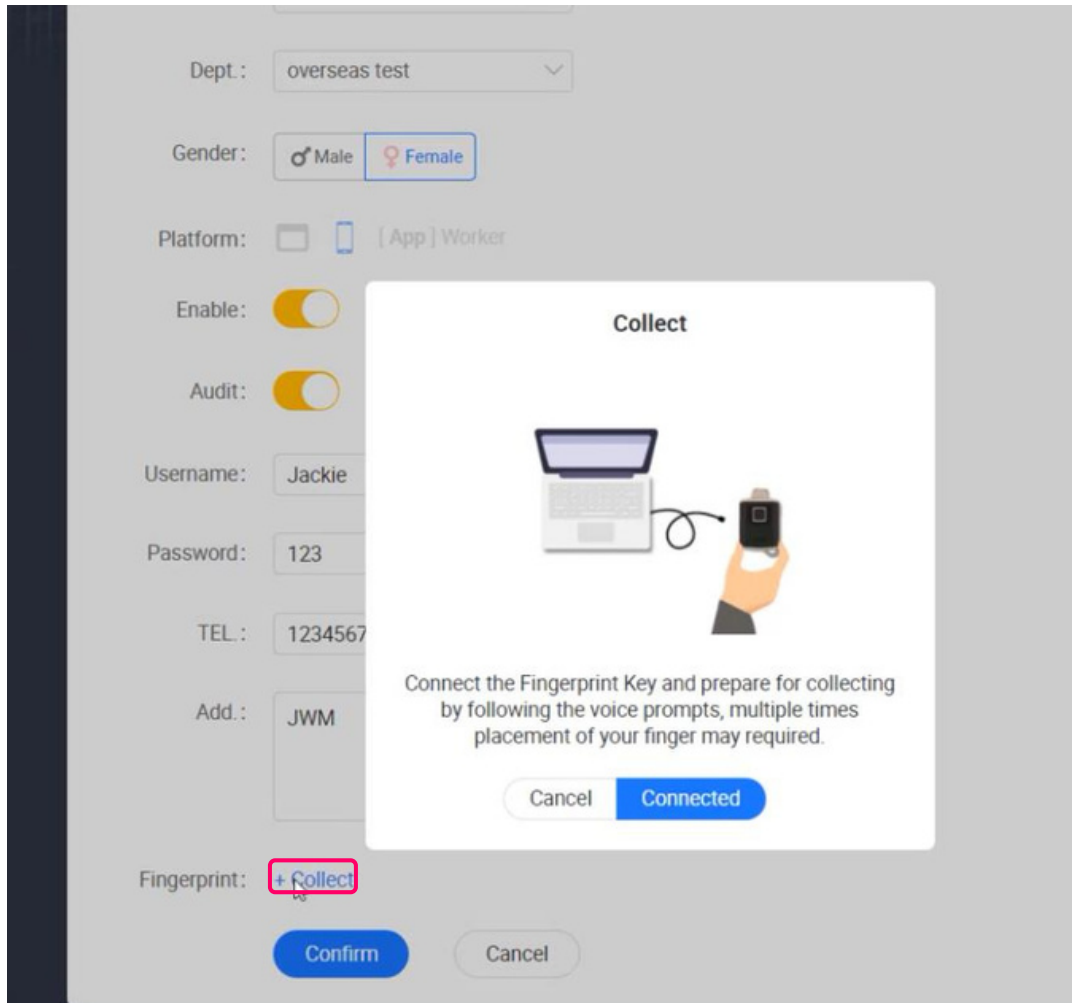

The screenshot shows the 'Key Registration' screen of the VanmaLock app. At the top, the status bar displays the time 9:33, 3G signal, and battery level. The app header is orange with a back arrow and the title 'Key Registration'. Below the header, there are several white input fields with orange borders. The first field is labeled 'Name' and contains the text 'B 1'. The second field is labeled 'MAC:' and contains the text '00:35:FF:FC:C7:1A'. The third field is labeled 'KeyID:' and contains the text '202104021021'. The fourth field is labeled 'Key hardware version:' and contains the text '3'. The fifth field is labeled 'KeyTime:' and contains the text '2021-09-14 11:08:47'. Below these fields, there are two orange buttons. The first button is labeled 'Set initialization lock system code key'. The second button is labeled 'Register' and is highlighted with a red border. A blue arrow points from the 'Register' button to a separate box on the right.

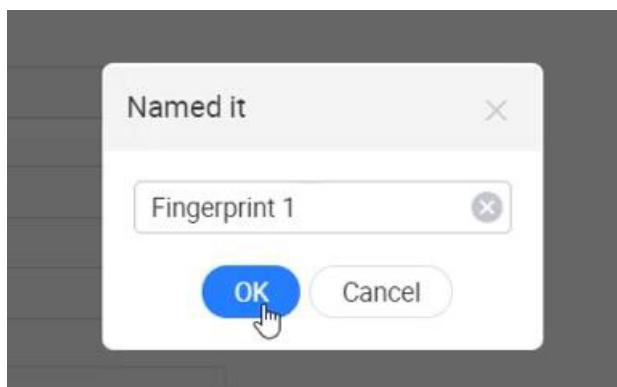

Here you could name this key or name it in the software.

Click Register, there will be a register key successfully prompt.

Register key successfully

- Now we need to back to the software to collect fingerprint, click "Collect", you will hear the voice prompt from the key to ask you place and left your finger for 3 times.

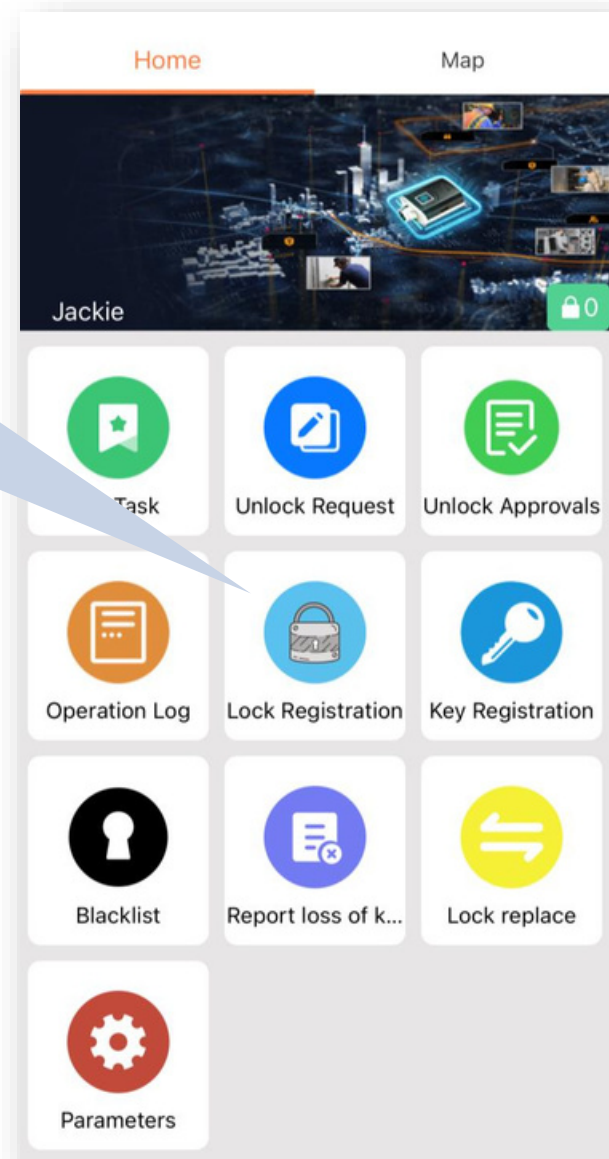

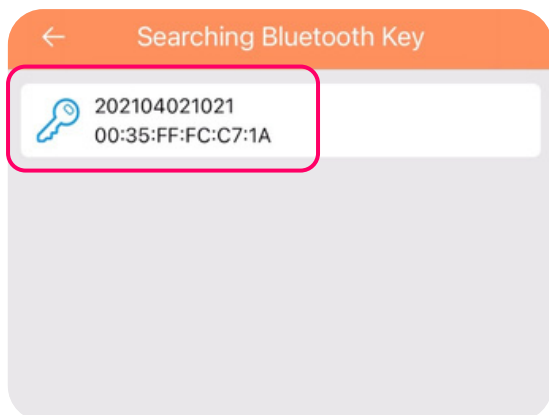

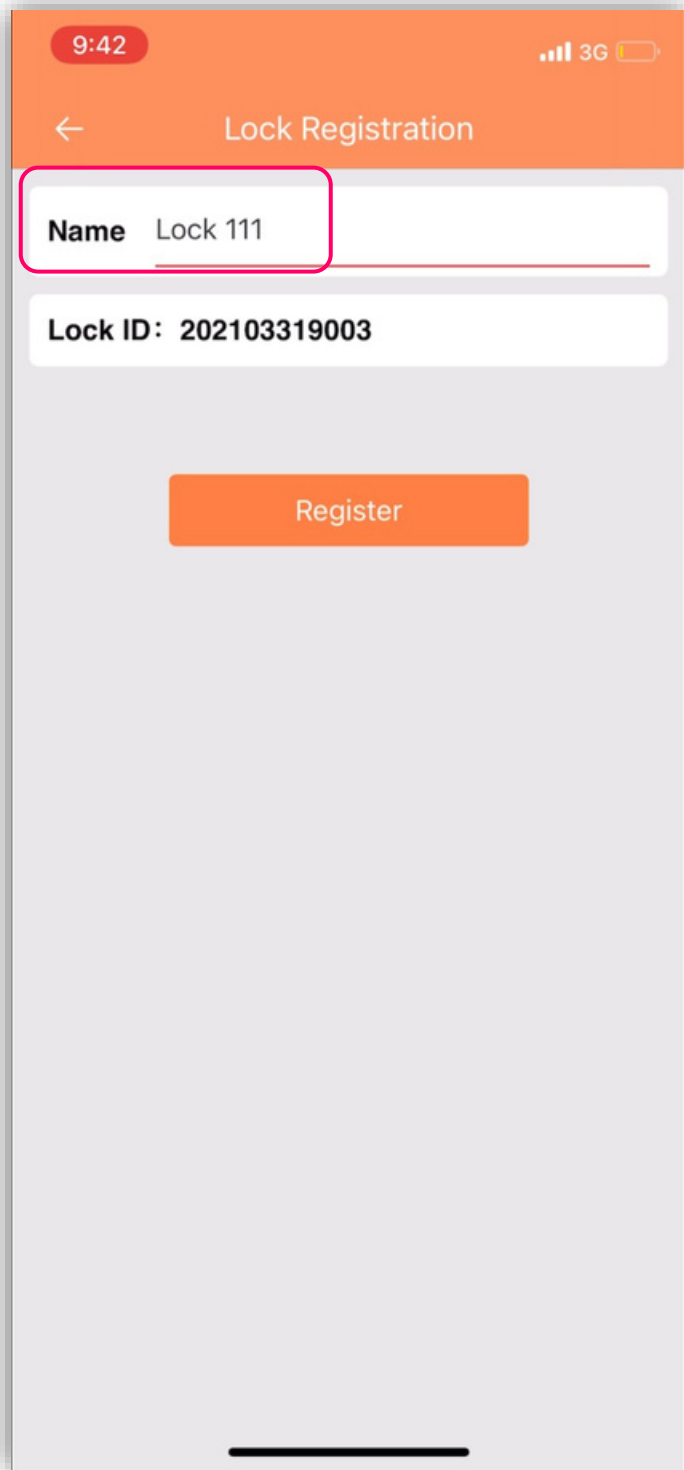

- And name it, click "OK", then the fingerprint you set will be successful.

7. Add Lock

Home Page. Click
Lock Registration to
add locks.

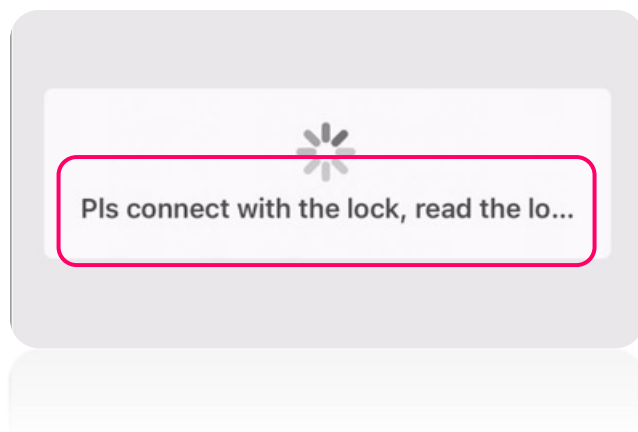

9:42 3G

← Lock Registration

Name Lock 111

Lock ID: 202103319003

Register

- Click the Bluetooth key, touch lock with it when you see the prompt. Then you could name this lock in app.

Unable to export?
Maybe you haven't select dept.

This operation report also could exported in two ways.

Q&A

Attention:

1. The software you see now is the trial version, all the keys and locks need be initialized under “Key List” when you use the official version, otherwise the keys and locks will be invalid in the official software.

Now the quick start
guide manual is end.
Any questions,
you could send email to
support@lockmanage.com
