APPLICATION AREA

Electricity: Distribution box, substations, power equipment, meter box

Railway: Protective nets, equipment box, communication boxes, signal box

Bank: Cash box, cash machine, escort truck, tail box

Exhibition: Jewelry store, gold store, museum

Communication: Base station door, computer room, cabinet door, optical delivery box

Water affairs: Pumping station, valve room, equipment room

Smart city: Street light box, traffic signal box

Petroleum gas: Valve room, pump station, pressure regulating cabinet

Public transportation: Subway turnstiles, vending machines, battery protection box, advertising light box, equipment box

Logistics vehicles: Post, express, tobacco, containers

Property: Fire door, weak current well, machine room, elevator, equipment room

Urban heating: Valve room, heating control cabinet, household control box, meter box

Army: Munitions depot, ammunition depot

Grain depot: Warehouse, grain storage

VANMA MANAGER

Manage every lock, key and access with remote management

AUDIT TRAIL

Vanma® bring full-featured access control to every locking point

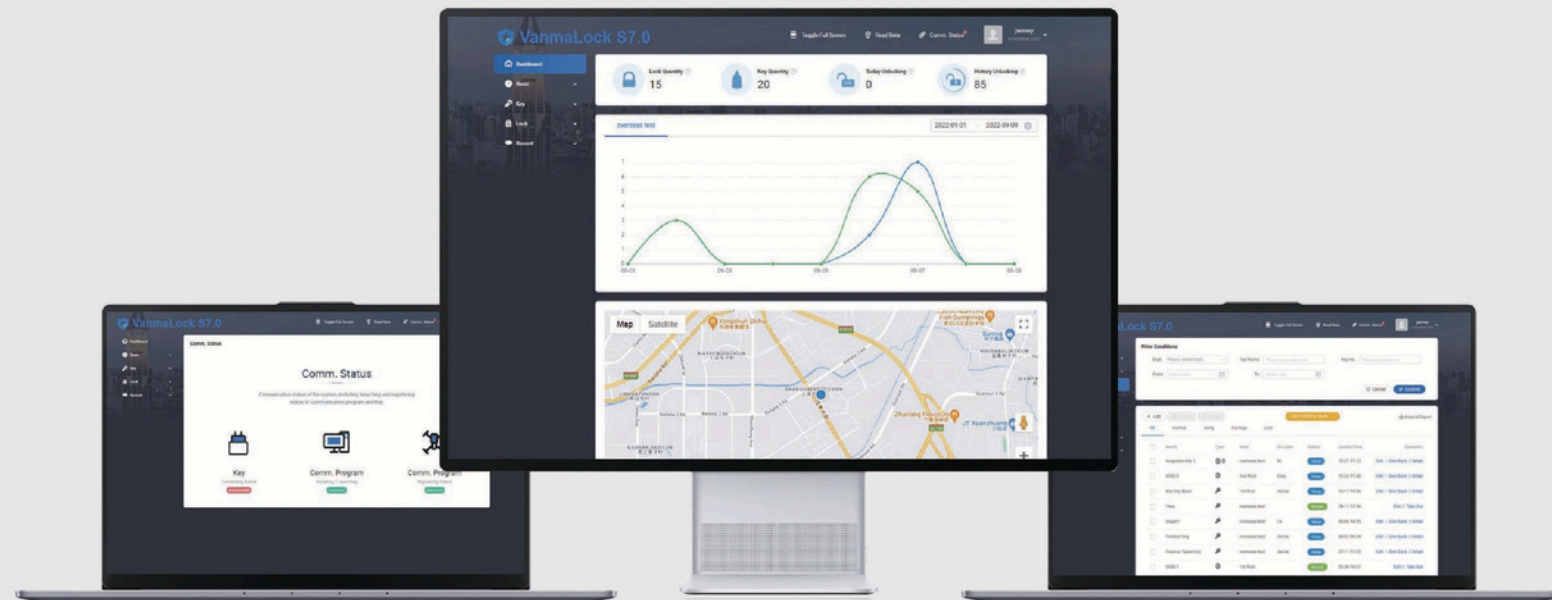

ONE KEY ONLY

Patented unique ID technology secure the key information. If a key gets lost, key can't be revalidated which reduces security risk without rekeying

VISUAL OVERVIEW OF SECURITY SYSTEM

Manager helps you manage your operation's daily security, access rights and control with clarity and simplicity

SYSTEM SOFTWARE ADVANTAGES

WEB STRUCTURE

BS architecture, multi-terminal login, role assignment and management. Both web and desktop versions are supported.

ALGORITHM OPTIMIZATION

Through unique algorithm optimization technology. Realize fast access to big data handle.

DATA SECURITY

End-to-end unique system code matching verification mechanism ensures data security.

CROSS-PLATFORM

Support Windows/Linux/MacOS mainstream systems.

TASK FLOW

The system software can realize task flow management.

ELECTRONIC MAP

The system supports Baidu, Goode, Google and Tiantu.

AUTHORIZATION MODE

Multiple authorization methods, including administrator, management APP and application.

APP

Supporting App working terminal Android/iOS dual-platform Bluetooth communication and wireless transmission.

GUIDED

Guided UI interactive operation is more comfortable and convenient.

MULTI-BROWSER

Google Chrome, Firefox, IE10.

TILORED

Deep customization of system software supporting various business requirements.

CONVENIENT EXPANSION

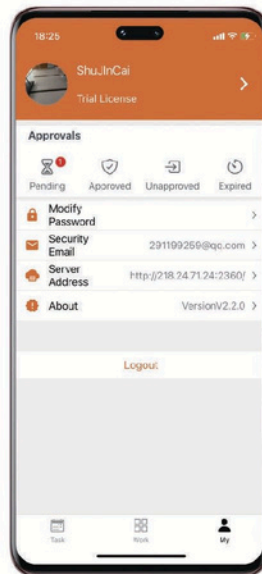

The system software provides a completely independent API data interface to facilitate third-party integration.

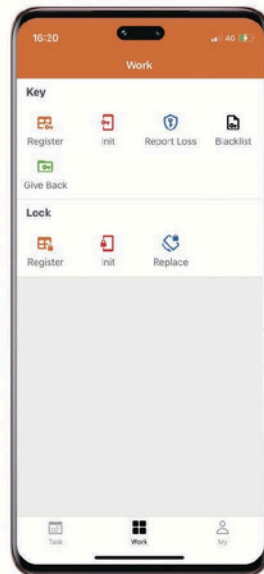

EASIER FLEXIBLE FAST
